OPENHEAVEN LAWRENCE

Full-Stack Software Engineer

+1 (334) 440-0743 · Openheavenlawrence77@gmail.com · LinkedIn: openheaven-lawrence · https://github.com/LawOpenheaven · Montgomery, AL 36117

✓ Authorized to work in the U.S. | F-1 OPT — EAD Card in Hand | No Sponsorship Required

PROFESSIONAL SUMMARY

Results-driven Full-Stack Software Engineer with an M.S. in Computer Science (Troy University, 2026) and a strong record across web application development, AI/ML integration, database engineering, and workflow automation. Experienced building scalable production systems in Python, React, FastAPI, and PostgreSQL — with hands-on ML work in TensorFlow and NLP. Brings the rare combination of deep technical ability and cross-functional communication skills to deliver real organizational impact in fast-moving teams.

PROFESSIONAL EXPERIENCE

Digital Systems & Communications Associate | *Rural Development Leadership Network (RDLN) — Remote / Montgomery, AL* *Feb 2026 – Present*

- Architect and manage digital infrastructure for a 43-year-old national nonprofit serving rural communities across 23 U.S. states, including web security, performance monitoring, and CMS operations.
- Built and maintain automated reporting, email workflow, and data-entry systems using no-code/low-code tools — reducing manual staff effort by an estimated 40%.

Graduate Assistant — International Student Services | *Troy University | Troy, AL* *Aug 2024 – Dec 2025*

- Designed and optimized digital workflows managing 200+ student records, improving data processing efficiency by 25%.
- Reduced manual data entry errors by 30% through implementation of form automation and validation logic.
- Maintained 100% compliance with institutional data governance standards across all confidential datasets.
- Collaborated with cross-functional administrative teams to streamline reporting pipelines, significantly cutting turnaround time.

Work-Study — Computer Science Department | *Troy University | Troy, AL* *Apr 2024 – Aug 2024*

- Configured and maintained 40+ development workstations, reducing lab downtime by 35%.
- Independently resolved 85% of software and hardware issues across multiple operating systems.
- Mentored 20+ students in debugging and algorithm design, improving assignment completion rates.

Mathematics & Computer Science Teacher | *Glorious Destiny Int'l School* *Jan 2023 – Dec 2023*

- Delivered technical instruction to 80+ students, raising programming proficiency scores by 18%.
- Reduced student error rates in algorithm-based assignments by 20% through targeted workshops and curriculum redesign.
- Developed structured lesson plans covering core CS concepts, data structures, and problem-solving techniques.

TECHNICAL PROJECTS

Adaptive AI Compliance Engine for Creative Industries | *Python · FastAPI · PostgreSQL · React · Whisper · Librosa*
https://github.com/LawOpenheaven/musicpolice

- Built a full-stack web application delivering real-time compliance analysis for AI-generated music and lyrics.
- Implemented NLP and audio signal pipelines integrating pre-trained models for bias detection and similarity scoring across a modular, scalable architecture.

Student Task Tracker | *Python · Flask · PostgreSQL · JavaScript · HTML/CSS*
https://lawopenheaven.github.io/student-task-tracker/login.html

- Built a full-stack task management system with JWT authentication, CRUD operations, and role-based access.
- Designed RESTful APIs with relational PostgreSQL modeling and a dynamic JavaScript frontend.

CORE COMPETENCIES & TOOLS

Languages & Frameworks: Python, JavaScript, C++, React, FastAPI, Flask, HTML5, CSS3, REST APIs
Databases & Data: PostgreSQL, SQL, data governance, records management, workflow automation
AI / ML: TensorFlow, Keras, scikit-learn, OpenCV, Whisper, Librosa, NLP pipelines
Dev Tools & Ops: Git, GitHub, Linux, VS Code, JWT Auth, Agile/Scrum, project management
Digital & Communication: Google Workspace, Canva, Adobe Suite, Zoom, LinkedIn, YouTube, social media

EDUCATION

Master of Science — Computer Science | *Troy University | Troy, AL* *Jan 2024 – May 2026*

Bachelor of Science — Computer Applications | *Bengaluru North University | India* *Jul 2019 – Dec 2022*
